With an extraordinary voice that moves from soaring heights to intimate whispers, Wendy explores all facets of the emotional world. Darkness and light, night and day, life and death are equally honored. Dedicated to a life of spiritual growth and healing, Wendy shares her insights and wisdom through beautifully deep and visionary lyrics. Each of her albums is a transformational journey that weaves together ancient mythological themes and Wendy's own stories of love, loss, grief and joy.

Every concert becomes a ritual, co-created by Wendy and her audience. From her intimate solo acoustic House Concerts, to her large scale events with a full band and string section, Wendy brings a unique magic to the stage. Dressed in beautiful costumes, she begins each concert with a blessing to the Earth and the 4 Elements before sharing her songs and the stories behind them. Always open and honest with her audience, she moves from intense passion to joyful playfulness, creating a deeply moving and sacred connection. 2010 will mark her 17th tour of the USA! With a steady flow of album releases, Wendy continues to take her music to her ever growing audience. Finding a strong and supportive fan base in America, she is now sharing her time between Australia and the USA.

Fiercely independent, Wendy has carved a unique path through the musical mainstream. Renowned for years amongst the world's alternative spiritual communities, she is now deservedly gaining a much broader following. Her unique live performances and her beautifully atmospheric and richly emotive songs continue to entice an ever growing audience into her magical realm.
